Are any of YOUR life changing events affecting your pet as well?

Would you like to pamper your pet to a day of relaxation?

Consider Reiki Energy Healing for your bundle of fur!

When you book your first appointment between October 4nd- October 31st receive \$10 off!

Call to book your appointment today!*

Unsure of what Reiki is?

Reiki (pronounced Ray-Kee) is a Japanese technique for stress reduction and relaxation that also promotes healing. It is administered through light touch, which allows the healing energy to flow from the practitioner's hands to the client.

We know animals are emotionally responsive, spiritual beings, just as we are, which makes them perfect candidates to receive and benefit from the positive results of Reiki!

How is Reiki administered?

Reiki is offered in a calm, quiet environment and the practitioner can either lay their hands upon the energy centers (chakras) of your pet, or if the animal is not amenable to touch, the Reiki can be "sent" to them from a safe distance.

If you are curious to learn more, simply call us at (201) 460-1900 or just check out these informative webpages on Reiki:

*Reiki sessions are given by Erica Salvemini, Master Reiki Practitioner, at 8 AM typically on weekdays. Special accommodations may be made for clients seeking Saturday appointments.

Is your pet on daily prescribed medication?

Do you wish there was a natural, organic solution for your pet's ailments instead?

Try CBD oil!

When you purchase a 15 ml bottle of CBD oil, receive \$5 off.

Offer good through to October 31st while supplies last!

What is CBD oil?

CBD (cannabidiol) is a compound found in cannabis and hemp. CBD oil provides the same relaxing effects of THC (tetrahydrocannabinol) without its psychoactive properties. In short, your pet won't get "high" from CBD oil; he'll get the relaxation without the intoxication! And yes, it's legal.

What can CBD oil be used for? *

CBD is now known to help with many ailments! Just to name a few: reduce anxiety, fight cancer, manage seizures, increase cardiovascular health, relieve pain, reduce chronic inflammation, and increase appetite by relieving nausea.

What's the best thing about CBD?

It's an all-natural and organic solution to so many physical and mental ailments! Long term use of pharmaceutical drugs can cause irreversible damage to your pet's organs. Even when CBD is taken in higher doses over an extended period of time, it has shown to be safe and effective for pets!

Where do we get our CBD oil from?

We purchase our CBD oil from a small business in Colorado called Standard Hemp Labs. They believe in only creating the most pure and organic CBD oil.
